1 Testing 测试

```
sentence = "the quick brown fox jumped over the lazy dog"
words = sentence.split(' ')  # 分词
print(words)
```

2 无多线程效果

```python
import time

def sing():
    for i in range(5):
        print('---------正在唱：菊花茶------------')
        time.sleep(1)

def dance():
    for i in range(5):
        print('---------正在跳舞-----------')
        time.sleep(1)

def main():
    sing()
    dance()

if __name__=='__main__':
    main()
```
